An Update on the Butler Family Adoption

Many of you know Ms. Melissa and her family have been actively in the adoption process for just over a year (2 years since announcing they started fundraising) . It has been full of ups and downs, but they have trusted God through every piece. After a few matches that didn't go as they had hoped, they remained faithful. At the start of July they found out they were **MATCHED AGAIN!** With a baby due at the beginning of September. Be in prayer for them, the baby, and the birth momma as there are many emotions in the process. Also if you are able to give, they are still accepting donations as expenses continue to build with each match.
